A 282 CC – No. 120

100 % Polyester Corespun Sewing Thread

A 282 CC – No. 120	
Applications	Specialist sewing thread for edge stitching machines, for example the Complett, produced from continuous filament polyester core and a long staple cover.
Advantages	Optimum and consistent performance on edge stitching machines, for example on the Complett, Juki and similar machines. Silk-like lustre; schappe spinning technology. Ideal engineered extension properties for sewing, an essential requisite for edge stitching machines. Additional specialist finish to the surface layers produces a coherent compact sewing thread that give the optimal sewability on critical and difficult fabrics.
