

The PR-600

It's easy to achieve fantastic results with the compact PR-600 embroidery machine

Always at your side

Exciting features

to power your personal expression

Extra-large, Easy-to-use Colour LCD Screen

Manage all functions with a simple touch of the easy-to-read LCD display. Intuitive commands and a built-in Quick-reference Guide make the control panel easy to use and quick to learn.

Six Needles on a Single Head

Embroider multi-colour designs quickly and easily. The automatic colour change feature allows you to pre-program the correct thread colour sequence for the entire design. The upper and lower automatic thread trimmers mean no time-consuming trimming after the embroidery is complete. With the PR-600, you can embroider more items in less time.

Cylinder arm

The cylinder arm makes it easier than ever to embroider items such as caps, tote bags, sleeves, trouser legs, shirt pockets and socks.

Become a professional

...or embroider just like one

The Brother PR-600 gives you the power and technology of a commercial embroidery machine yet is incredibly easy to use. This innovative machine is compact enough to fit anywhere in your home and portable enough to take on the road. Best of all, its attractive price makes it possible for you to realise big dreams with a small investment.

The PR-600 fits your lifestyle

The sleek, contemporary looking PR-600 will fit perfectly into your home. It's also portable enough for you to carry.

The PR-600 is so easy to use and quick to learn, you can begin today to embroider with professional results.

The best of both worlds

Brother has an established reputation for manufacturing high-quality sewing and embroidery machines for both the industrial and home products markets. In fact, Brother is the **ONLY** manufacturer with an expertise in both worlds, which is what makes the PR-600 so special. We understand what it takes to engineer a machine for you who are ready to take your personal embroidery experience to a commercial level. And, Brother's outstanding training and support is always "at your side."

Built-in embroidery patterns

produce professional results with ease

The PR-600 offers you patterns for all ages, interests and seasons, built right into the machine. With the built-in lettering fonts, you can personalise your projects, simply and easily. The PR-600 is also compatible with Brother's award-winning PE-Design software for use with popular home and commercial embroidery formats.

abcde

All this at your fingertips

Multimedia Capability*

Built-in slots for floppy disks, Brother memory design cards and compact flash cards offer you a wide variety of design storage options.

Built-in Keyboard Lettering

An exclusive feature of multi-needle embroidery machines, built-in lettering fonts give originality to all your projects.

Exclusive Automatic Needle Threading

Simply pull the lever down to see the upper thread pass through the needle quickly and securely.

Built-in Thread Colour Information

Wide selection of built-in thread colour information makes it easy to choose the appropriate colours.

USB Port

Use the PR-600 as stand-alone machine or directly connect it to your computer with the USB port.

Eight-sided Design Trace

Exclusive automatic, eight-sided design trace gives you more accurate design placement.

Individual Stitch Backup

Back up through designs by individual stitches, colour blocks or groups of 100 stitches.

Customise designs on-screen

Powerful customising capabilities include arranging text, pattern rotation in one-degree increments, change design size (increase 10%, decrease 20%), and the ability to combine designs and add lettering to your designs.

Design Memory Retention

Your designs are retained in memory after you shut off the machine.

Digitising Software

Compatible with Brother's award-winning PE-Design software and for use with popular home and commercial embroidery formats.
